(a) last 20 m: share below 0.5 m/s (1 s means)
stops begin at 71, 216, 356, 503, 660 s (dotted)
vehicles stopped (%)
time (s)
(b) outflow at the exit: flat steps = nothing leaves
vehicles past 200 m (cumulative)
all classes except Bike
Bike
time (s)
(c) a 147 s cycle, strongest at the exit
autocorrelation of mean speed
at 195 m
at 100 m
at 20 m
lag (s)
(d) restarts move upstream from the front
position along section (m)
release at 114 s
release at 274 s
release at 416 s
release at 563 s
release at 698 s
time after release until mean speed > 2 m/s (s)
